

Whisky Castle

The World Famous Whisky Castle has been selling the finest malt whiskies of Scotland for over 100 years from the Highlands of Scotland.

We hold over 650 malt whiskies with many being single cask, independently bottled and from small batches.

Our single malts are personally selected by us so you are assured of some of the most unique drams from across Scotland including limited and rare collectables and our luxury, exclusive bottlings that are only available from The Whisky Castle.

Your hosts Samantha and Scott would be delighted to welcome you to The Whisky Castle to sample some of the finest malts and gins Scotland has to offer.

We provide tutored tastings as a unique gift for whisky lovers and novices alike, and all our bottlings are available to purchase online.

Call 01807 580213 for more information.

Wrightfield Pools

Moving pool floors from Wrightfield Pools provide the ultimate solution for varying the depth of your swimming pool. Within minutes your pool can be converted from its maximum depth to a surface that is dry and solid. So you can have a swimming pool in the day which transforms into a usable floor space at night.

A Wrightfield moving pool floor is easily adjusted to a depth to suit the swimmers size and capabilities. When children are about the pool floor can be raised making the pool perfectly safe.

Our moving pool floors allow you to transform your existing pool into an alternative floor area at the flick of a switch. Moving pool floors can be included as part of a stainless steel pool build or retrofitted to most existing swimming pools.

Choose your outdoor with Maestro by Corradi

Maestro is a product that looks to the future of the outdoors with an innovative and varied approach in order to give the broadest choice to those who wish to live the outdoor space with avant-garde solutions and a unique style.

The main configuration of Maestro is self-supporting in aluminium and the coverage can be equipped with sliding foldable canvas or adjustable blades, which is a totally new approach in the outdoor market.

The canvas, itself, can be curved thanks to calendered tubes, tightened with spacers or slack with alternating trapezoidal manufacture.

Both the configurations – canvas or blades – allow one to pair the structures without doubling the pillar, thus enable to efficiently and elegantly cover large surfaces as well.

Attavanti – Home of Italian Style

Think of Italy and you can't help thinking about their sense of style and their ability to produce effortless designs, after all, this is the home of Ferrari, Versace, Gucci and Prada. However, Italy does have a little secret. Apart from all the famous brand names, there is a whole industry of small family run artisan businesses, producing luxury items of the highest quality, especially handcrafted leather goods. In fact, many of their beautiful products were difficult to find outside Italy but now, thanks to Attavanti, they are now readily available online. Our suppliers have been carefully selected for their exclusive designs, the quality of their products and of course their passion and integrity, using ecologically tanned leathers and age old techniques. Our range includes handbags, business and travel bags, accessories and even scarves.
