the Outdoor Alchemist

CORRADI IS ABILITY TO TRANSFORM AN OPEN-AIR AREA INTO A LIVING SPACE.

Like an alchemist, Corradi integrates outdoor solutions into all kinds of natural settings. Thus, the Corradi outdoor living space is created, to harmoniously and perfectly communicate with its inhabitant.

In Corradi, transforming the outdoors in a pleasant place to live means:

Made - to - measure and personalized products
*
CE marked products
*
Attention to design and functionality
*
Wide range of products and value-added services
*
Concept, executive project, production and aftersale service also for special projects
*
Selected and prepared network of Authorized Dealers

FOR OVER 45 YEARS WE HAVE BEEN DESIGNING SOLUTIONS THAT ALLOW YOU TO ENJOY OUTDOOR SPACES AT BEST.

Founded in Bologna in 1978, Corradi is now a worldwide successful Company in the production of folding canvas systems, bioclimatic pergolas and sun sails, with a unit for custom-made projects.

___headquarters

IN 2018 CORRADI MOVED TO ITS NEW HEADQUARTERS IN VIA SERENARI 20, A PROJECT BY LOMBARDINI22 STUDIO AND DESIGNED WITH INDUSTRY 4.0 IN MIND, WITH A DOUBLED PRODUCTION CAPACITY AND A PAINTING SYSTEM THAT USES THE MOST ADVANCED TECHNOLOGIES.

Corradi still has the same drive, the same enthusiasm as in the beginning.
The desire to do well, to develop new things, to seek other points of view.
The desire to invent the outdoor space of tomorrow.

IN 2023, THE NEW SERENARI16 SPACE HAS BEEN OPENED, SPANNING OVER 9.400 SQ. M., OF WHICH 3.400 OF INDOOR AREA. IT IS DEDICATED TO TRAINING EVENTS AS WELL AS MEETINGS WITH DESIGNERS AND CUSTOMERS. THE AREA INCLUDES AN INDOOR SHOWROOM AND NEW WAREHOUSE AREAS.

In the same period, work began for Serenari26 on a new warehouse next to the main production plant, with two new towers for automated component picking.

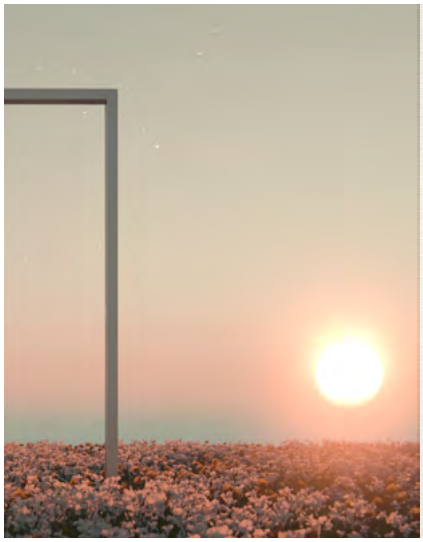
___technology & sustainability

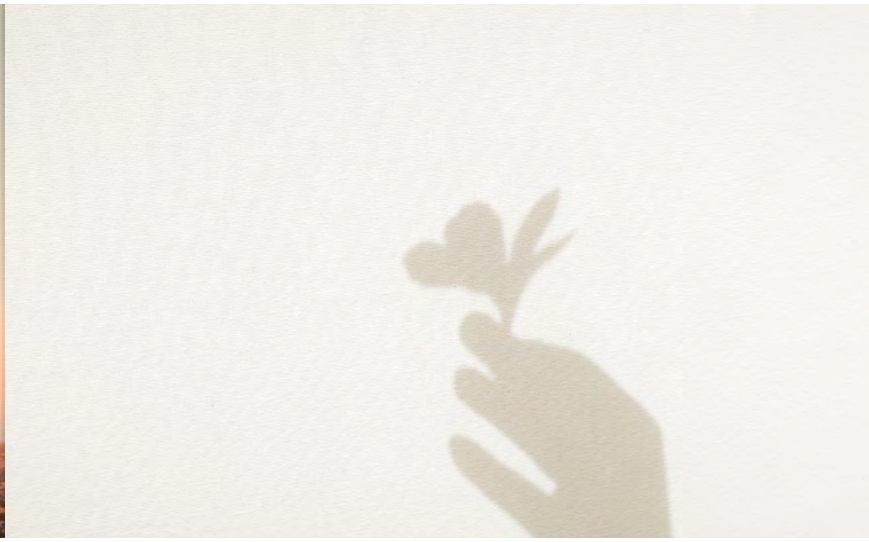
WELCOME TO THE BEATING HEART OF CORRADI PRODUCTION, WHERE MODERNITY AND EFFICIENCY COME TOGETHER

Our paint plant features cutting-edge technology and quality, with a particular focus on eco-sustainability. In fact, it allows achieving considerable water and energy savings and the best recovery of paint waste.

The entire Corradi production line is organised to optimise processing, including the recent introduction of a new automated picking system that speeds up preparation and simplifies stock management.

___the perfect design solutions for every space





CORRADI PRODUCTS ARE DESIGNED TO CREATE A STRONG CONNECTION BETWEEN INDOOR AND OUTDOOR SPACES, IN A CONSTANT BALANCE BETWEEN THE ENVIRONMENT AND ITS INHABITANTS.

A natural extension of your living space: folding canvas Pergolas, Bioclimatic Pergolas and Sun Sails bring your outdoor space to life with unique, personalised and custom-made designs

Technique and design, high quality materials and finishes, experience and passion are the ingredients of our craft.

our products

WE BELIEVE THAT EACH PROJECT MEETS UNIQUE NEEDS, WHICH IS WHY FLEXIBILITY IS A FUNDAMENTAL REQUIREMENT OF OUR APPROACH.

Pergotenda® is the sliding covering system patented by Corradi, made-to-measure and customizable to make outdoor spaces comfortable and enjoyable for many months out of the year.
The range of sliding covering pergolas has been completed by **Butterfly**, **the pantograph system** launched in 2024.

Bioclimatic pergolas are aluminum outdoor structures equipped with orientable blades that can be rotated by remote control or, in some cases, manually.
The rotation of the blades creates an environment that is particularly comfortable in all seasons, as by changing their inclination you can control the sunlight and the degree of natural ventilation in the environment below, thereby adjusting the temperature.
This creates a custom microclimate to meet your needs, while with the blades fully closed the space below is protected from the weather.

Sun sails stem from a deep knowledge of the nautical world.
The application of the technology and materials that are mostly used at sea make them unique and provide excellent resistance to weathering, salinity and wear.
Completely rolled up in a few seconds thanks to a motorized or manual mechanism, Corradi sun sails use premium materials such as stainless steel, anodized aluminum, polyester canvas and Dacron®, much admired in the nautical field for its exceptional dimensional stability.
