SVET Retractable Awning

Svet is particularly suited to shade the wide surfaces of bars, restaurants and resorts thanks to its new arm support in extruded aluminium that allows the Svet to reach a 23' (276") width by 13'6" (162") projection. The Svet uses the patented feature arm Urban, the essence of the most advanced technology and fine Italian design. Urban and Svet only use stainless steel hardware and the patented roller tube bracket seamlessly integrated with the square bar to eliminate the need for unsightly external bolted on brackets found in most other standard designs. It also features the innovative Dynamic Arm Torsion System, which helps to protect the traction mechanism and to prevent fabric tears. Standard Frame colors available for the Svet are White Quartz, Granite, Carbon & Corten—all finishes are matte. A complete line of awning fabrics is available, featuring our Para Tempotest line of 100% acrylic awning material. The Svet is patented in both technology and design.
